

Burning Brightly Still

They walked beside a river
In the quiet morning air
Searching for heaven's answers
Seeking the Lord in prayer
On bended knee they came
Before the Lord to plea
The veil of heaven parted
The bonds of hell did flee

Before them stood a prophet
Sent by apostles of old
The hands of him called Baptist
Reopened heaven's fold
In the name of Messiah
To these servants he spoke
And with the power restored
All the sleeping world awoke

CHORUS

Now men once more with angels sing
All glory to our Lord and King
As the earth is bathed in light
Driving out the darkened shadows of the night
The flame is burning brightly still

The keys had now been given
The way had been declared
The road was laid before them
Carefully prepared
No longer would the search
And wishes be in vain
Authority was granted
For acting in His name

CHORUS
